STL CURE SARCOMA

RACING TOWARD HOPE, HEALING & A CURE

2026 SPONSORSHIP OPPORTUNITIES

TURNING HOPE INTO ACTION

STL Cure Sarcoma was created by patients, families, and advocates who believe that no one should face a sarcoma diagnosis alone. What began as a grassroots effort has grown into a community-driven organization united by one purpose: to fund research, raise awareness, and support those impacted by this rare and complex cancer.

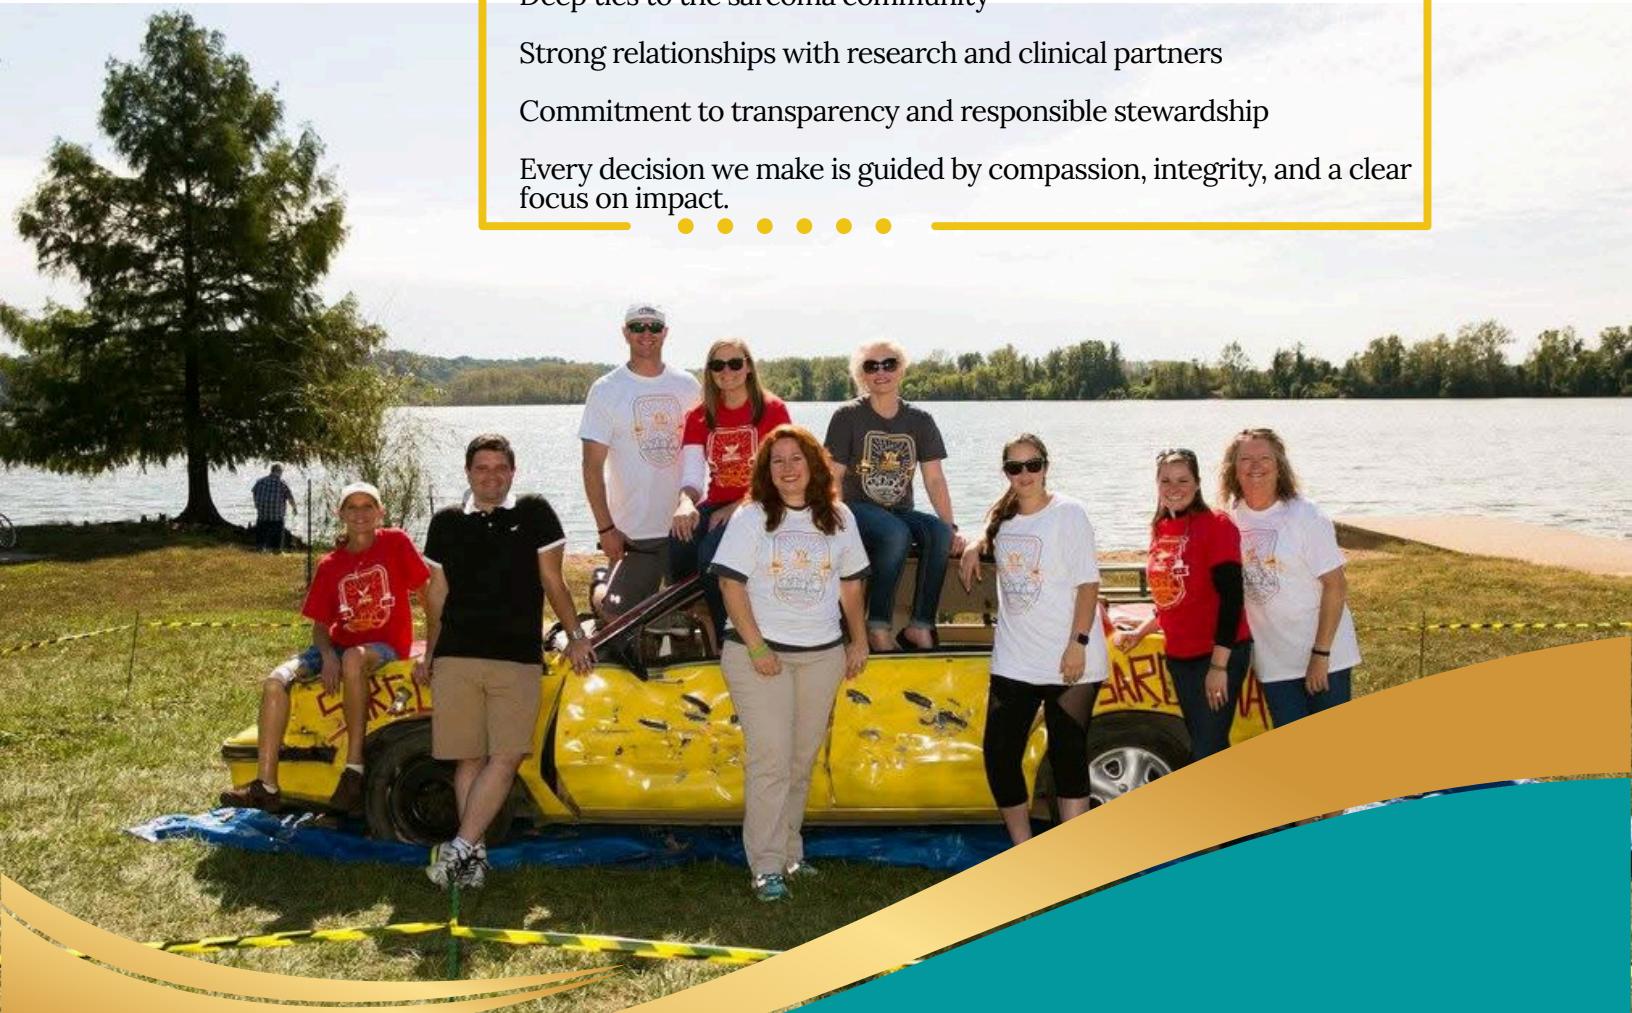

Our mission is guided by lived experience and strengthened by collaboration — bringing together survivors, warriors, caregivers, medical professionals, veterans, and community partners who are committed to advancing sarcoma care and outcomes.

Sarcoma is a rare and complex cancer that affects people of all ages, including children and young adults. With more than 100 subtypes and limited public awareness, patients often face unique challenges that demand specialized care and research.

These challenges are why STL Cure Sarcoma exists — to help close critical gaps by funding research, elevating awareness, and building a strong, connected community that supports patients and families while driving progress where it's needed most.

WHAT SETS US APART

- 100% volunteer-led organization
- Deep ties to the sarcoma community
- Strong relationships with research and clinical partners
- Commitment to transparency and responsible stewardship
- Every decision we make is guided by compassion, integrity, and a clear focus on impact.

SARCOMA RESEARCH MATTERS

Sarcoma is rare, representing just **1%** of adult cancers, but its impact spans all ages.

Nearly **15%** of childhood cancers are sarcomas, and with more than **100** subtypes, sarcoma demands highly specialized research, treatment approaches, and long-term support.

Because it is rare, sarcoma receives significantly less research funding, making community-driven efforts critical to advancing treatment options and improving outcomes.

YOUR SPONSORSHIP FILLS A CRITICAL GAP IN SARCOMA RESEARCH FUNDING.

In many cases, children with sarcoma receive treatments originally developed for adults, adjusted rather than designed specifically for pediatric care. Investing in sarcoma research helps move beyond adaptation toward innovation — creating treatments built for all ages, not borrowed from adult care.

OUR IMPACT AT A GLANCE

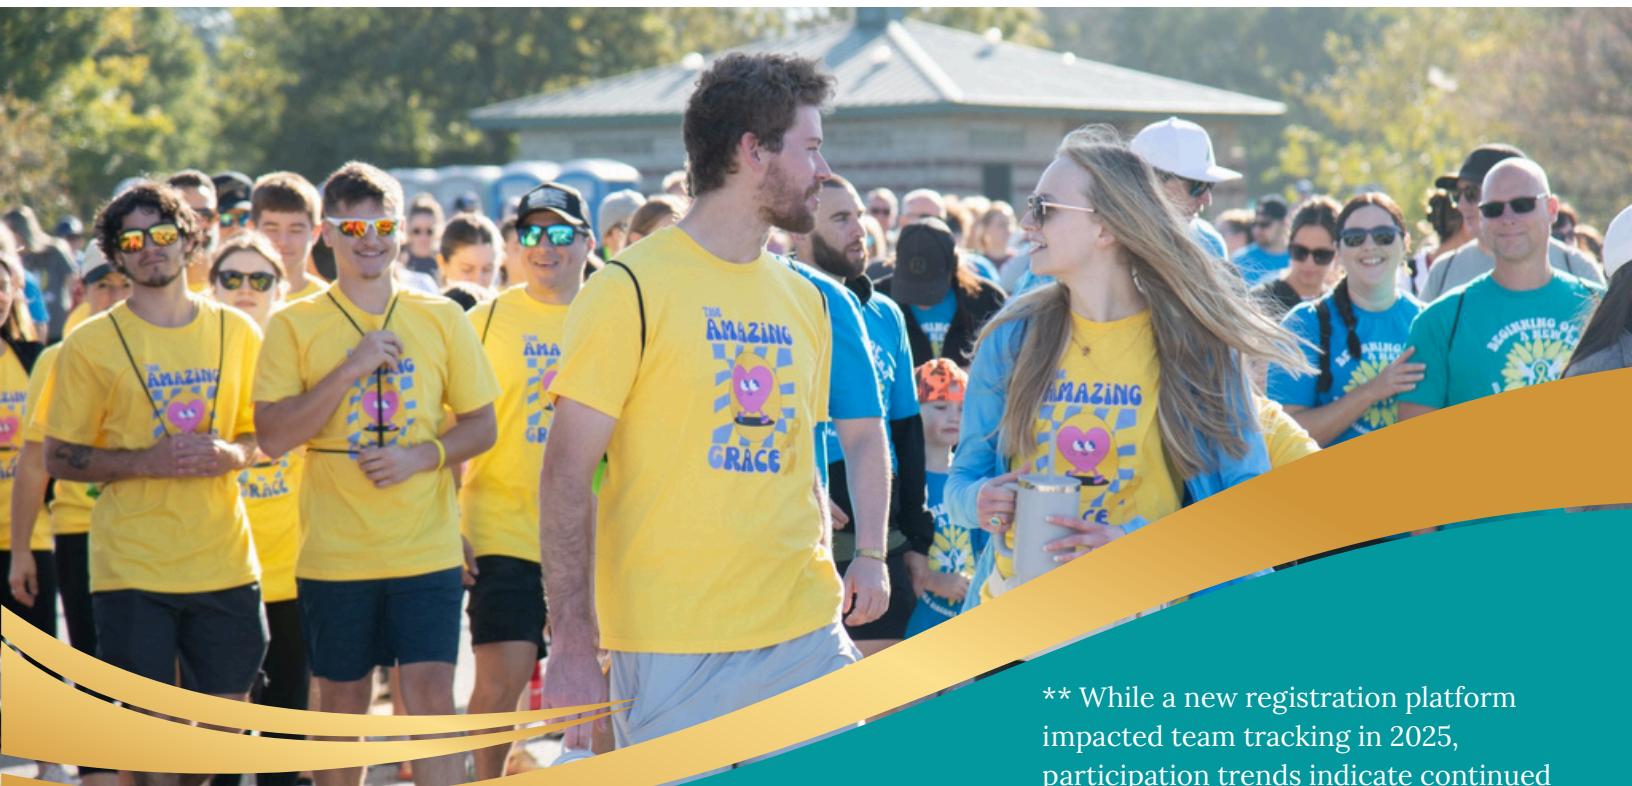

Together with our participants, sponsors, and donors, STL Cure Sarcoma has helped raise nearly **\$1.7 million** in support of sarcoma research and patient-focused initiatives – both during our years under a larger entity and since becoming an independent **501(c)(3)**.

2024 – Our First Year as an Independent Organization

741 Registered Participants, plus countless supporters.
49 Teams united in honor of sarcoma warriors
\$126,474 Raised for sarcoma research
~**30** Volunteers powering race day success
\$45,000 to Dr. VanTine at Siteman Cancer Center
\$45,000 STL Cure Sarcoma MST/Sarcoma Strong Inc. Research Award

2025 – Building Momentum

808 Registered Participants, plus countless supporters.
36+ Teams (platform transition limited team tracking)**
\$145,570 Raised for sarcoma research
~**30** Volunteers powering race day success
Because fundraising continues through **December 31**, grant funding will be distributed and announced in **2026**, ensuring the full impact of annual support.

** While a new registration platform impacted team tracking in 2025, participation trends indicate continued team growth compared to prior years.

PEOPLE BEHIND THE DIAGNOSIS

Sarcoma is a rare cancer that affects people of all ages, yet its impact is wide and significant. In the United States, an estimated **17,300** people will be diagnosed with sarcoma in a single year — including both soft tissue and bone sarcomas — with thousands more living with the disease at any given time.

ACROSS THE LIFESPAN

Adults: Sarcoma accounts for about **1%** of all adult cancers, making it one of the rarest yet most complex cancer types.

Soft Tissue Sarcomas: The most common form, soft tissue sarcomas, are estimated to account for roughly **13,520** new diagnoses each year in the U.S. alone.

Bone Sarcomas: Though less common than soft tissue types, bone sarcomas contribute significant challenges and are often seen in younger populations.

CHILDREN & YOUNG ADULTS

Children and adolescents are uniquely touched by sarcoma:

- About **15%** of pediatric cancers in the U.S. are sarcomas.
- Estimates suggest **1,500–1,700** children and teens are diagnosed with bone or soft tissue sarcoma each year.
- This means many families face childhood diagnoses during crucial developmental years — confronting treatment, schooling challenges, and long-term survivorship issues.

VETERANS & SERVICE MEMBERS

Sarcoma also affects veterans at notable rates, particularly in relation to herbicide and service-related exposures.

Some soft tissue sarcomas are even recognized by the U.S. Department of Veterans Affairs as presumptive conditions, meaning they are assumed to be connected to military service for eligible veterans.

STL Cure Sarcoma honors those who have served and support their unique healthcare journeys, recognizing the intersection of military service, sarcoma diagnoses, and long-term care needs.

WHY THIS MATTERS

Because sarcoma is rare and includes more than **100 different subtypes**, research is challenging and requires specialized focus.

This diversity contributes to unique diagnostic and treatment obstacles that vary from one patient to another, underscoring the critical need for enhanced funding, awareness, and tailored care.

Part I Taxpayer Identification Number (TIN)

Enter your TIN in the appropriate box. The TIN provided must match the name given on line 1 to avoid backup withholding. For individuals, this is generally your social security number (SSN). However, for a resident alien, sole proprietor, or disregarded entity, see the instructions for Part I, later. For other entities, it is your employer identification number (EIN). If you do not have a number, see *How to get a TIN*, later.

Note: If the account is in more than one name, see the instructions for line 1. See also *What Name and Number To Give the Requester* for guidelines on whose number to enter.

Part II Certification

Under penalties of perjury, I certify that:

1. The number shown on this form is my correct taxpayer identification number (or I am waiting for a number to be issued to me); and
2. I am not subject to backup withholding because (a) I am exempt from backup withholding, or (b) I have not been notified by the Internal Revenue Service (IRS) that I am subject to backup withholding as a result of a failure to report all interest or dividends, or (c) the IRS has notified me that I am no longer subject to backup withholding; and
3. I am a U.S. citizen or other U.S. person (defined below); and
4. The FATCA code(s) entered on this form (if any) indicating that I am exempt from FATCA reporting is correct.

Certification instructions. You must cross out item 2 above if you have been notified by the IRS that you are currently subject to backup withholding because you have failed to report all interest and dividends on your tax return. For real estate transactions, item 2 does not apply. For mortgage interest paid, acquisition or abandonment of secured property, cancellation of debt, contributions to an individual retirement arrangement (IRA), and, generally, payments other than interest and dividends, you are not required to sign the certification, but you must provide your correct TIN. See the instructions for Part II, later.

Future developments. For the latest information about developments related to Form W-9 and its instructions, such as legislation enacted after they were published, go to www.irs.gov/FormW9.

What's New

Line 3a has been modified to clarify how a disregarded entity completes this line. An LLC that is a disregarded entity should check the appropriate box for the tax classification of its owner. Otherwise, it should check the "LLC" box and enter its appropriate tax classification.

New line 3b has been added to this form. A flow-through entity is required to complete this line to indicate that it has direct or indirect foreign partners, owners, or beneficiaries when it provides the Form W-9 to another flow-through entity in which it has an ownership interest. This change is intended to provide a flow-through entity with information regarding the status of its indirect foreign partners, owners, or beneficiaries, so that it can satisfy any applicable reporting requirements. For example, a partnership that has any indirect foreign partners may be required to complete Schedules K-2 and K-3. See the Partnership Instructions for Schedules K-2 and K-3 (Form 1065).

Purpose of Form

An individual or entity (Form W-9 requester) who is required to file an information return with the IRS is giving you this form because they
